

Meeting Minutes 14

MEETING MINUTES

=====

Meeting: Operations Technology Committee
Department: Operations
Date: May 27, 2026
Time: 1:00 PM - 2:30 PM
Location: Operations Center
Meeting Facilitator: COO
Minutes Prepared By: Operations Technology Team

ATTENDEES

COO

Operations Director
Supply Chain Manager
Manufacturing Systems Lead
Quality Systems Manager
Maintenance Manager
IT Operations Representative

ABSENT

None

AGENDA

1. Operations technology performance review
2. Supply chain system status
3. Manufacturing systems upgrade
4. Quality management system enhancement
5. Predictive maintenance implementation
6. Q3 technology initiatives

DISCUSSION

Item 1: Operations technology performance review

Operations Director presented technology performance:

- System availability: 99.2% (target 99.0%)
- Response time: 1.8 seconds (target 2.0 seconds)
- User satisfaction: 4.3/5.0
- Downtime incidents: 2 incidents in Q2, both resolved within SLA

Operations technology performing above targets.

Item 2: Supply chain system status

Supply Chain Manager presented system status:

- Inventory management: System operational, accuracy 98%
- Order processing: Automation 85%, target 90%
- Supplier portal: Adoption 75%, onboarding continuing
- Analytics dashboard: In development

Team agreed to accelerate order processing automation.

Item 3: Manufacturing systems upgrade

Manufacturing Systems Lead presented upgrade status:

- Current system: End of support December 2026
- Upgrade evaluation: 2 vendors under consideration
- Key requirements: IoT integration, real-time monitoring, predictive analytics
- Decision timeline: Selection by August 15
- Implementation: Q4 2026 - Q1 2027

Team approved evaluation approach and timeline.

Item 4: Quality management system enhancement

Quality Systems Manager presented enhancement status:

- Current system: Functional, limited analytics
- Enhancement needs: Advanced reporting, mobile access, integration with manufacturing
- Vendor evaluation: 3 solutions shortlisted
- Implementation timeline: Q3-Q4

Team approved enhancement initiative and budget allocation.

Item 5: Predictive maintenance implementation

Maintenance Manager presented predictive maintenance status:

- Pilot implementation: 3 machines, 80% accurate predictions
- ROI analysis: 25% reduction in unplanned downtime
- Expansion plan: Rollout to 50 machines by Q4
- Technology selection: IoT sensors + AI platform selected

Team approved expansion plan and technology selection.

Item 6: Q3 technology initiatives

COO outlined Q3 initiatives:

- Accelerate order processing automation: Priority 1
- Select manufacturing systems upgrade vendor: Priority 2

- Implement quality management enhancement: Priority 3
- Expand predictive maintenance: Priority 4

Team approved initiatives and resource allocation.

ACTION ITEMS

1. Accelerate order processing automation - Supply Chain Manager (Due: August 30)
2. Conduct manufacturing systems vendor demos - Manufacturing Systems Lead (Due: July 15)
3. Select quality management enhancement vendor - Quality Systems Manager (Due: July 30)
4. Expand predictive maintenance to 50 machines - Maintenance Manager (Due: September 30)
5. Develop Q4 manufacturing systems implementation plan - Manufacturing Systems Lead (Due: September 15)

NEXT MEETING

Date: June 24, 2026

Time: 1:00 PM - 2:30 PM

Location: Operations Center

Agenda: Order processing automation progress, manufacturing systems selection, predictive maintenance expansion

MINUTES APPROVED BY: COO

DATE: May 27, 2026
